VOPEX-M12V-4 Local Unit (Front & Back) and ST-M12V-R-600 Remote Unit

- **Vibration resistant**
- **Robust Screw Terminal Power Connection**
- **High quality rugged steel construction**

The VOPEX® Industrial VGA Video Splitter/Extender simultaneously broadcasts high-resolution video from one computer to 4 or 16 remote monitors located up to 600 feet (183 meters) away using CAT5/5e/6 cable with M12 connectors. The robust M12 connector system is ideal for harsh industrial environments where reliable connections are required.

The VOPEX VGA video splitter/extender system has two components: the VOPEX-M12V-x VGA broadcast unit, which connects to the host computer and also supplies video to a local monitor, and an XTENDEX® ST-M12V-R-600 remote unit for each remote monitor. The units are interconnected by CAT5/5e/6 cable terminated with M12 connectors.
